

International Conference themed:

'Building Interdisciplinary Bridges Across Cultures'

BIBAC 2014, 24-26 October 2014 Cambridge

Faculty of Education, Homerton College & Churchill College, University of Cambridge

*power-packed
programme of
thought-provoking
papers, inter /
multidisciplinary
presentations,
academic-arts
performances,
intercultural
concerts and
forums.*

The conference provides a platform for scholars, educators, researchers, creative arts practitioners, performers and composers to sculpture interventionary frameworks and challenge ways of thinking, presenting and researching in the nascent fields of interdisciplinary arts practice. It celebrates the diversity of creativities that increasingly manifest within the hybridising of cultural fragments and draws attention to implicit and explicit nuances in translating, understanding and bridging cultural gaps within the nexus of performance theory-practice / practice-theory discourse
